The only thing I would like to solve is to make companies more open with wages. They put these numbers from 55,000 to 110,000. It is so large of a more transparent number with that you are willing to pay. If you need a job, you need this app! Over the years of the hunting hunting and all the different works I have had, this app gave me the most successful in hiring. I dedicated time online and filling in the applications, entering companies in person and talking to the manager and many other things. But nothing got the results as really. With my time on this platform, I realized how much employers really use. I have been assumed more times different from really being. I recently been hired in a job in which a company contacted me! When I was at the job interview I saw that I had my information printed from the website really. In fact it is a really easy to use platform. Making my rã © Sumã © It was so easy with them and I can even download my rã © Sumã © to be used for other applications elsewhere from what I did on the site. I really can't say enough. If you need your life to change and you need the job you are looking for, you need this app! This app is a great scam. This app therefore has a call "employees" who make it seem that they receive an interview and a job through another name of "Wire Messenger" scam. They really have people who send you a message after requiring a job by saying "my name is" "" ,ã,~ à € and I invite you to an interview on an app that you must download called "Wire Messenger" ". Just to accompany you through an entire process that is a waste of time and to collect banking information to rob you. That it really has to do is to inform the people that this app is not that it uses to be. agap adap e enoiznetta iaf ,otseno oroval nu odnacrec ats e ppa atseuq alba What and how e-mails and text message is delivered to you. In fact, they are disappointed in this society because most of the works I have been hired were before the Standemica. It is how the à € œPandemicã € was an easy way to hit the people who need work. I only know that the company is part of the scams. They are only too many of the same scam messages. I know for a fact, if a employer is actually needed to contact for an interview, because I have to download an app where I don't know or see who I'm talking to. So only a reminder for all those who have this application and want honest work. If there is something wrong, leave it alone!
